SKILLS

WEB DEVELOPMENT: Ruby, Python, Javascript, Rails, Sinatra, Flask, React, jQuery, Express.js, NPM, Node, SQL, Heroku, Git, Linux

PROJECTS

Yacht Or Nyacht?   Apr 2017 - Current

Developed for the Beyond Yacht Rock podcast, this app determines whether or not a song, album, or musician is 'yacht rock,' using scores from the hosts and integrated data from Discogs. Built using Ruby on Sinatra, PostgreSQL, and Javascript.

Pie Finder

A single-page app where users can enter an ingredient and get back several pie recipes that incorporate that ingredient. Built using Python on the Flask framework and Javascript.

Articulate

A web app that allows a user to practice a speech or presentation, giving them personalized feedback on their performance and content. Built by a team of four in one week using Ruby on Rails, React, Javascript (jQuery, W3 Speech API), HTML & CSS, and IBM Watson's Tone Analyzer and Alchemy APIs.

EXPERIENCE

BTRToday, *Programming Director*, New York, NY   May 2012 - Nov 2016

- Coordinated with DJs and media personalities from around the world to develop new and unique music and talk podcasts.
- Engineered hundreds, if not thousands, of podcast recording sessions.
- Rebuilt a recording studio from scratch.

BTRToday, *Host/DJ, Content Editor*, New York, NY   Sep 2009 - May 2012

- Hosted a music podcast highlighting current underground punk and DIY music.
- Edited and published several podcasts on a weekly basis.

Project Real World, *Co-creator*, Brooklyn, NY   Dec 2013 - Dec 2015

- Wrote, directed, edited, and acted in an independent comedy web-series and podcast.
- Produced promotional live events for the show.

WSRN-FM, *General Manager*, Swarthmore, PA   Jun 2008 - Jun 2009

- Oversaw repairs and capital improvements of arcane terrestrial broadcasting equipment.
- Implemented a searchable database system to organize the station's substantial library of LPs and CDs.

Olde Club, *Live Sound Engineer*, Swarthmore, PA   Jan 2006 - Jun 2009

- Ran sound for a wide variety of events, both local and high-profile.
- Maintained and repaired professional audio and lighting equipment.

EDUCATION

Dev Bootcamp

Graduate 2017

Completed a nineteen-week long immersive program in fullstack web development, focusing on Ruby, Rails, Javascript, React, HTML & CSS, Git, Agile, and Test Driven Development.

Swarthmore College

BA Linguistics 2009
